## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1, 3-6, 8, 10-14, 16, 20 and 23 are allowed.

### ***Examiner's Statement of Reason for allowance***

The following is a statement of reasons for the indication of allowable subject matter.

The most relevant references are the *Kravitz*, *Martino*, *Vatanen*, *Morrill, Jr.*, *Herlin et al* and *Herbert et al* references.

*Kravitz* reference teaches the invention substantially as claimed, including in a method of payment in a purchasing action performed by means of an electronic communication device between a customer using said electronic communication device and a provider offering goods or services, steps of: building up a connection between said customer and said provider via a communication channel of said communication device and authorization of a customer to give a money transfer order; upon receipt of a purchase order from said customer, issuance of an electronic bill by said provider and transmission of said electronic bill to said customer; upon acknowledgement of said electronic bill by said customer transmission of a money transfer order from said customer to a payment provider; execution of said money transfer order by said payment provider by debiting an account of said customer; sending a receipt of payment, which includes an encrypted digital signature of the payment provider, to said customer; confirming the encrypted digital signature of said receipt; and forwarding said receipt of payment to said provider offering goods or services.

Art Unit: 3691

*Martino* teaches the use of a voice channel to perform simple verbal placement.

*Vatanen* teaches authentication of customer identification prior to establishing a connection.

*Morrill, Jr.* teaches telecommunication provider authenticates that the customer is authorized to give money transfer order using ID (*SIM*) of the sending phone.

*Herlin et al* teaches the use of a SIM for authentication.

*Herbert et al* teaches confirming the encrypted digital signature of said receipt by a confirmation center, wherein said confirmation center is other than said provider offering goods or services.

The *Kravitz*, *Martino*, *Vatanen*, *Morrill, Jr.*, *Herlin et al* and *Herbert et al* references fail to teach

*subsequent to confirming the digital signature, forwarding said receipt of payment to said provider offering goods or services;*

*wherein said steps between the telecommunications provider and the payment provider are employed utilizing fully automated equipment; and*

*wherein a computer program product embodied on the subscriber identification module (SIM) of said electronic communication device performs automated steps comprising:*

*receiving the electronic bill transmitted via a first channel of said electronic communication device;*

*upon acknowledgement of said electronic bill by the customer using said electronic communication device, creating said money transfer order;*

Art Unit: 3691

upon creation of said money transfer order, transmitting said money transfer order to the payment provider via a second channel of said electronic communication device; and receiving said receipt of payment from said payment provider and forwarding said receipt of payment to said provider of goods and services.

Updated searches revealed no references that disclosed the claimed invention, nor were any further references identified which could be reasonable combined with *Kravitz, Martino, Vatanen, Morrill, Jr., Herlin et al* and *Herbert et al* references.

For this reason, claims 1 and 12 are deemed to be allowable over prior art of record and claims 3-6, 8, 10-11, 13-14, 16, 20 and 23 are allowed by dependency.

Any comments considered necessary by the applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reason for Allowance".
